The Gaul’s RPG Handbook: Conquer the Romans, Defeat the Odds

Welcome, Brave Gaul!

Congratulations on opening this guide. You’re about to embark on an epic RPG adventure where the only thing standing between you and victory is the endless tide of Romans (and their uncanny ability to never learn from their mistakes). Your job? To outsmart, outwit, and send every Roman soldier packing—all with nothing but your cleverness, a magical potion, and a big dose of Gaulish confidence.

No need for shields, no need for armor—Asterix never needed those to take down a hundred Romans. All you need is your sharp mind, quick thinking, and, of course, a deep-seated love of freedom (and maybe a little help from some magic potion).

Get ready for a quest where Romans fall at your feet, and the only thing you’ll need to worry about is how to make them stay down. No food required—just pure strategy and an unbreakable will!

Starting the game

Start easily by running the **Menu** class.

Then select if you want to load saved inventory and choose your level.

Key Shortcuts

Here’s a list of key shortcuts to help you master the controls:

- **W, A, S, D** – Move Asterix around
- **Left Click** – Grab items
- **Right Click** – Attack Romans
- **Q** – Open inventory
- **C** – Delete whole inventory
- **T** – Save inventory
- **O** – Health Potion
- **I** – Attack Potion
- **P** – Speed Potion

Levels and Difficulty

Level 1: Easier Than Level 2

In **Level 1**, you'll face a more relaxed introduction to the game. The challenge here is to familiarize yourself with the controls, environment, and enemies. You won't face too many Romans, so this level is all about preparing for what's to come.

However, **Level 2** is a much tougher challenge. Here, you'll face more Romans.

Load Inventory from Previous Games

If you choose to load your inventory from previous games, it will carry over **only** the items in your inventory. Nothing else will change – just the items you've collected in earlier quests.

Character Types in Asterix's Quest RPG

Here's a quick overview of the characters you'll encounter:

Centurion

- **Health:** 5
- **Attack:** 2
- **Description:** Centurions are the backbone of the Roman army. With higher health and stronger attacks, they pose a significant challenge. Defeat them with strategy or force!

Regular Roman Soldier

- **Health:** 3
- **Attack:** 1
- **Description:** The basic Roman soldiers are commonly encountered throughout the game. Not as tough individually, but they come in numbers. Beware!

Fisherman (Regular Villager)

- **Health:** N/A
- **Attack:** N/A
- **Description:** A regular villager with no combat skills. The fisherman is useful for gathering information and may provide you with a fishing pole or clues about your next move. He may not be much in a fight, but he's a helpful ally in your quest.

Obelix

- **Health:** N/A
- **Attack:** N/A
- **Description:** Obelix is your trusty, non-combatant companion. He can help you find important items, like the bucket for Panoramix's potion-making, but does not engage in combat. He's strong in spirit, if not in battle stats.

Panoramix

- **Health:** N/A
- **Attack:** N/A
- **Description:** Panoramix, the wise druid, does not engage in combat. He's essential for crafting the magic potion that boosts your strength. He also serves as a trader, offering potions. To create the potion, he needs specific ingredients.

Panoramix's Potion Ingredients

You can gain recipes for crafting potions by interacting with Obelix.

How to Craft Panoramix's Potion

To craft **Panoramix's potion**, simply approach him and press the key for the potion you want to craft. However, be careful! If you don't have the required ingredients, **Panoramix will send you off**. So, make sure you have the right ingredients before asking him to make the potion for you!

Types of Potions in Asterix's Quest RPG

All potion effects are **permanent**.

Health Potion

- **Effect:** Restores your health to full.
- **Description:** When you're wounded and need a quick recovery, the **Health Potion** is your best friend. Drink it to fully restore your health, and get back into the fight!

Attack Potion

- **Effect:** Increases your attack power to 3 (if your strength is > 3, it has no effect).
- **Description:** Feeling like you need more strength to defeat the Romans? Drink this potion to boost your attack. With this extra strength, you'll be able to crush your enemies with even more force!

Speed Potion

- **Effect:** Increases your speed x2.
- **Description:** Need to outrun the Romans or dodge their attacks? This potion will boost your speed x2, making you faster and more agile. Perfect for when you need to get away... or get to the action faster!

Centurion's Elixir

- **Effect:** Doubles your attack power (permanently).
- **Description:** A powerful Roman concoction, the **Centurion's Elixir** doubles your attack power permanently. Can be acquired after defeating a Centurion. After drinking this, you'll feel the strength of the Romans surge within you, ready to conquer even more formidable foes!

How to Reach the Ingredients

Some of the ingredients you need for crafting potions are located on **islands across the water**. However, **Asterix** is too small and afraid of water, so he can't reach these ingredients directly. **You need to obtain shoes from Obelix to be able to walk over the bridge, because Asterix has too small feet.**

The Bridge to the Islands

To get to these ingredients, you'll need to use the **bridge**. The bridge will allow you to cross the water without having to face Asterix's fear of water or his small size. Once you've crossed the bridge, you'll reach the islands where you can gather the necessary ingredients, such as **carrots**, **mushrooms**, and others.

- **Tip:** The bridge is the only way to access the islands, so be sure to use it when you're ready to collect your ingredients!

Hero Stats: Asterix

Health

- **Health:** 10
- **Description:** Asterix, the brave and clever Gaul, starts with full health and can take a few hits in battle. His health is important for surviving against the Romans and other challenges.

Attack

- **Attack:** 1
- **Description:** Asterix may not be the strongest fighter, but his wit and agility help him defeat enemies. His basic attack power is 1, making him capable of dealing damage, but you can increase his power with potions or items!

Mana

- **Mana:** 5
- **Description:** Asterix has a limited mana pool, starting with 5. Mana is consumed every time he performs an attack, so you'll need to manage it carefully during battle. Fortunately, mana replenishes automatically every second, so make sure to wait for a recharge if needed!
- **Important Notes:**
 - **Mana Refill:** Asterix's mana refills every second. However, you need to be careful with your attacks as each one consumes mana. Plan your strategy wisely!
 - **Health:** Asterix has a decent amount of health, but be careful not to get overwhelmed by too many Romans!

How to Win the Game

It's simple – **just defeat all the Romans** and the game ends! That's it! The ultimate goal of **Asterix's Quest** is to take down the Roman invaders who stand in your way.
